On page 12, line 13, delete "output terminals", and delete "can be provided" and insert therefor --standard--.

On page 12, line 16, after "controlling" insert --the--.

On page 12, line 22, delete "judged" and insert therefor --determined--.

On page 14, delete lines 20-24.

IN THE CLAIMS:

Please amend claims 1-6 as follows:

1. (Amended) A data processing apparatus, comprising:
a [plural] plurality of output terminals for outputting digital data [to which predetermined control data to be supplied is added], said digital data including predetermined copy control data; and

AS cont
a control means for controlling [output of] each said output terminal [in order to output] such that said digital data [via] is output from only [one] a specified [output terminal from among] one of said plurality of [plural] output terminals according to [the contents of copy restriction based on said control data] said predetermined copy control data.

2. (Amended) The data processing apparatus according to [Claim] claim 1, wherein said control means adds said [the] predetermined copy control data to said digital data to be output from [via only] said one specified output terminal.

3. (Amended) The data processing apparatus according to [Claim] claim 1, wherein [the contents of] said predetermined copy control data [copy restriction shows that copy] indicates whether said digital data can be copied [is prohibited, or copy is allowed only once].
